ABOUT THE SCHOOL

The School of the Nations is an internationally oriented institution licensed by the Macao Government as a non-profit organisation. As a K-12 English-medium instruction school, it is the first Cambridge International School as well as the first IB World School in the Macao Special Administrative Region of China.

MISSION & VALUES

As an integral component of the Badi Foundation's educational programs, we are dedicated to nurturing the physical, intellectual, and spiritual development of our students, and developing their capabilities to promote the well-being of their families and communities. The context for our work is the recognition that humankind is progressing towards a global civilisation that is just, prosperous, peaceful, and united. The school seeks to contribute to this process in the context of Macao through its educational programmes and engagement with the broader community.

COMMITMENT TO SERVICE

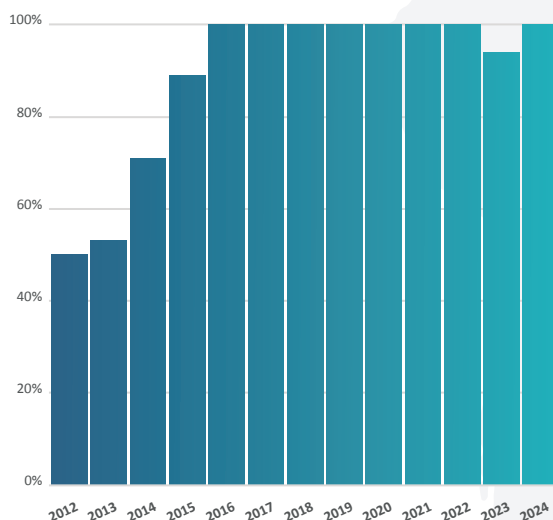

Community service, both locally and globally, is a particularly important part of what we do. Our teachers and students are encouraged not only in getting involved with local community but also further afield. This commitment to service is also strengthened through CAS (Creativity, Activity, and Service) requirements for the IBDP.
